AC Schnitzer Wheel and Tyre Combinations for the new BMW 5-series GT

"The first of its type. It is the ideal combination of representative elegance of a saloon, the flexibility of an estate and the versatility of an SUV", is how BMW introduced its latest vehicle creation - and rightly so.

Although "Gran Turismo" cars have celebrated great successes in the past, the BMW 5-series GT has further refined and reinterpreted all Gran Turismo attributes.

The result is a unique vehicle category. And naturally we are also devoting all our know-how to the development of a complete AC Schnitzer range for the new BMW 5-series GT which will cover all vehicle sectors. The range will include performance upgrades, sports rear silencers and tailpipes, suspension optimisation, aerodynamic components and accessories for the interior.

A brief overview of the wheel and tyre combinations already available is given below.

Type IV wheels, BiColor		Wheel size	Tyre size
	front	8.5J x 19"	245/45 R 19
	rear	9.5J x 19"	275/40 R 19
	front	9.0J x 20"	245/40 R 20
	rear	10.0J x 20"	275/35 R 20
